

Conga Drumheads

With Remo's advanced drumhead technologies and the input from the best percussionists in the world, Remo has improved the sound and feel of their drumheads. Crimplock® Symmetry, Type 4, conga drumheads were created to add flexibility in our manufacturing while increasing available drumhead dimensions. This means, Crimplock® Symmetry drumheads can fit more conga drum models from the various manufacturers.

All Remo world percussion drumheads are weather resistant and easy to tune.

FIBERSKYN® 3 provides a superb, authentic drum sound for maximum projection, lively overtones, and slap tones that are easy on your hands.

NUSKYN® sounds natural, warm, and full-bodied with enhanced low and mid-range frequencies, without any lingering high pitched overtones.

SKYNDEEP® is the graphic infusion of pigment into a polyester surface making it uniquely attractive while producing warm tones, increases sound volume and projection in any environment.

Selecting Skyndee® Graphic Drumheads

Add the three digits listed below to the end of the Skyndee® Model Number to indicate the graphic artwork.

- 003 Calf Skin Graphic
- 007 Tiger Stripe Graphic
- 008 Puerto Rican Flag Graphic
- 009 Black Calf Skin Graphic

The new model number is illustrated here. Model number labels are placed under each drumhead for quick identification.
